

Spectris – Spectris Dynamics site visit

21 June 2023 – Spectris plc (SXS: LSE), the expert in providing insight through precision measurement, is today hosting an investor event at its Virtual Test site in Udine, Italy on Spectris Dynamics (Dynamics), one of the Group's two main business divisions.

Dynamics is a global leader in advanced virtual and physical testing, and high precision sensing solutions. It is uniquely placed, offering the broadest solution, with the ability to integrate both the physical and virtual worlds of test and measurement. Dynamics supports the world's leading automotive, machine manufacturing, aerospace, electronics and advanced research customers.

In 2022, Dynamics grew sales by 16% (7% on a LFL basis) to £492.2 million and delivered an adjusted operating margin of 15.0%. In the first quarter trading update issued on 27 April 2023, the Dynamics business reported continued sales momentum delivering 21% LFL growth in the first quarter.

During today's presentations, Andrew Heath, Chief Executive, will be joined by members of the Spectris Dynamics team led by Ben Bryson, President, to provide greater insight into the outlook and prospects for the Dynamics business.

The presentations will highlight the unique breadth of Dynamics' offering; its plans to drive continued organic growth from strong positions in attractive, high growth markets; and its focus on delivering sustainable profitable growth and further margin expansion towards the Group's operating margin target of 20% over the coming years.

No new material financial information or update on trading will be provided.

A video of the presentations and a copy of the materials to be presented will be available at www.spectris.com.
