

Industrial Solutions Division presentation

8 December 2021 – Spectris plc (SXS: LSE), the expert in providing insight through precision measurement, is today hosting a presentation on its Industrial Solutions Division ('ISD').

Andrew Heath, Chief Executive, and Mary Beth Siddons, President, Industrial Solutions Division, will provide greater insight into each of the companies within ISD.

Following the Group's portfolio optimisation programme, ISD now has more focus and a significantly improved financial profile. The division comprises three high quality companies which are closely aligned to the Spectris purpose to make the world cleaner, healthier and more productive:

- PMS – the leader in micro contamination monitoring solutions for ultra-clean manufacturers;
- Servomex – a global expert in specialist premium gas and moisture analysis solutions; and
- Red Lion Controls – provides solutions to connect, monitor and control disparate assets within industrial automation.

The presentation will provide an overview of each business, their strategy and market outlook. Pro-forma historical financials for the division will also be provided.

No new material financial information will be provided.

A live broadcast of the event and a copy of the materials to be presented will be available at www.spectris.com from 14.00 (GMT).

To access the conference call in order to ask questions, please dial +44 (0) 20 3936 2999, toll free 0800 640 6441 – Participant code: 915989.

About Spectris

Spectris' global group of businesses are focused on delivering value beyond measure for all our stakeholders. We target global, attractive and sustainable markets, where growth and high returns are supported by long-term drivers. Precision is at the heart of what we do. We provide customers with expert insight through our advanced instruments and test equipment, augmented by the power of our software and services. This equips customers with the ability to reduce time to market, improve processes, quality and yield. In this way, Spectris know-how creates value for our wider society, as our customers design, develop, test and manufacture their products to make the world a cleaner, healthier and more productive place. Headquartered in Egham, Surrey, United Kingdom, the Company employs approximately 7,900 people located in more than 30 countries. For more information, visit www.spectris.com.
